carbonhouse.com.au

EsSCO and Carbon House are leading Queensland companies in the fields of Supply Chain and Project Management and Carbon Strategies for Business and Agriculture. The owners, Liam Stitt and Rod Glass will personally deliver this innovative workshop series. This open invitation is to all business across the sectors of manufacturing, creative industries, family business, regional, mining technology and clean energy.

This workshop would normally cost \$400.00 per attendee. With EC support, these workshops are free courtesy of EC, EsSCO and Carbon House.

The challenge for Australia is to survive and thrive in a carbon conscious world, navigating domestic and foreign regulation and a global marketplace with ever increasing demand for sustainability.

Carbon House provides business with a framework for success in the management of carbon.

WORKSHOP INFORMATION

*All workshops are fully funded by **Enterprise Connect (EC)** and are therefore complimentary.*

WHAT WILL THE WORKSHOPS COVER?

- Process mapping current state supply chain
- Dimensioning the supply chain in terms of environmental drivers
- A brief overview of climate science
- The United Nations Conventions and Australia's obligation
- ETS vs. alternatives
- Current Australian legislation and the implication it has on business
- Beyond carbon

WHAT WILL BE THE OUTCOMES?

- Identification of actions for individual firms and projects for collective supply chains that could achieve the overall program objectives
- Strategic competitive advantage

WHO SHOULD ATTEND?

- Business Owners & Managers
- Manufacturing & Production Planners
- Transport, Warehouse & Distribution Staff
- Business Development Managers
- Quality & Environmental Personnel
- Procurement & Inventory Specialists
- Recycling/Waste Officers
