Lufthansa pilots strike cancelled

A strike by approximately 4,000 pilots at German airline Lufthansa has been suspended - with union officials agreeing to resume negotiations.

The action - which had been scheduled to run for four days - was called off after less than 24 hours of delays and cancellations for passengers.

There will be no further action until at least March 9.

Please contact your Voyager Travel Consultant if you need any further advice or assistance.

Real service, real experience, real innovation.

That's the Voyager difference.
